N. Judicial Review – Anagha Dixit, Assistant Attorney General

1. Irland v. Board of Medicine - Mark B. Irland, M.D., was seeking judicial review of a confidential letter of warning issued by the Board, contending it is an illegal and unconstitutional agency action. The Court of Appeals affirmed the district court's dismissal of Dr. Irland's petition for judicial review. The Iowa Supreme Court granted Dr. Irland's request for further review and

held oral arguments on January 23, 2020. The Supreme Court issued a decision on February 14, 2020 reversing the rulings of both the District Court and the Court of Appeals. Procedendo has issued and the case is with the District Court with instructions on how to draft their order.

2. Calcaterra v. Board of Medicine - Domenico Calcaterra, M.D. - After the Board denied his Petition for Declaratory Order, Dr. Calcaterra sought judicial review. The Board filed a motion to dismiss. Dr. Calcaterra requested a stay of the Board's decision to deny his petition, and for the court to order the Board to remove his disciplinary documents and press releases from its website. The district court granted Dr. Calcaterra's request for a stay, and remanded the petition for declaratory order back to the Board. The Board issued a declaratory order finding that statements of charges are public documents. Dr. Calcaterra has renewed his petition for judicial review of this declaratory order. Parties briefed the matter and had oral arguments on the matter on January 17, 2020. The case has been submitted to Judge Hanson and we continue to await a decision.

3. Robinson v. Board of Medicine-- David Robinson, M.D., entered a settlement agreement with the Board in 2016. In 2019, the Board terminated the terms of his probation. Dr. Robinson requested that the Board rescind the 2016 settlement agreement, and the Board declined to do so. Dr. Robinson has now sought judicial review of this agency action in district court. The appendix in this case was filed but Dr. Robinson alleges that the entire investigatory report should be part of the record. The Board has resisted the matter and a hearing was held on the issue on January 28, 2020. The matter has been submitted and awaiting an order. The scheduling order has been delayed as we still have not received a decision from the Court.

4. Yates v. Board of Medicine – Leroy L. Yates, JR, M.D., lost a contested case on December 12, 2019. Within the 30 days he had to appeal the matter he filed a Petition for Judicial Review in District Court. However, he filed his Petition in an already resolved scheduling matter that was before the District Court. The Board has filed a notice to the District Court that this matter needs to be removed from that case and filed as a new case. The Board has also filed a Motion for a More Specific Statement and requested proper service once the case has been properly filed. Petitioner on his accord filed a new Petition for Judicial Review in new case. The Board has both answered the Petition and requested that the matter be dismissed as untimely. No briefing schedule has been set.

5. Doe v. Board of Medicine – John Doe, M.D., lost a contested case on January 16, 2020. The Petitioner had been ordered by the Board to attend a confidential comprehensive competency evaluation. A hearing was held on the matter over two days in 2019 and Administrative Law Judge Johnathan Gallagher issued his decision on January 16, 2020. A timely petition for judicial review was filed. The Board has answered and has filed the administrative record and a briefing schedule will be set shortly.
