for the (addition or removal) of

Tourette Syndrome

PETITION FOR ADDITION or REMOVAL (Circle one)

(medical condition, medical treatment or debilitating disease) to the list of debilitating medical conditions for which the medical use of cannabidiol would be medically beneficial.

Petitioner's Information form with fields for Name, Home Address, City, State (IA), Zip Code, Telephone Number, Email Address, and a Yes/No question about directing information.

Representative's Information form with fields for Name, Mailing Address, City, State (IA), Zip Code, and a Yes/No question about directing information.

Telephone Number: [REDACTED]	Email Address: [REDACTED]
1. Please provide the name of the specific medical condition, medical treatment, or debilitating disease you are seeking to add to or remove from the list of debilitating medical conditions for which patients would be eligible to receive a medical cannabidiol registration card. <i>Please limit to ONE condition, treatment, or debilitating disease per petition.</i>

2. Please provide a brief summary statement that supports the action urged in the petition. *Attach additional pages as needed.*

[REDACTED] has uncontrolling motor tics that look as though they are seizures. He has to take Haldol, an antipsychotic med, to minimize the tics, though they are still present. This medication also causes drowsiness. CBD has been proved to stop the tics, much like it does for epilepsy. There are very few meds that help with tics, and the ones that can be tried have strong side effects.

3. Please provide a brief summary of any data or scientific evidence supporting the action urged in this petition. *Attach additional pages as needed*

44% of parents see improvement w/ pharmaceuticals -
Not a high rate of effectiveness. The Tourette
Association of America supports research, and
also finds CBD to help control or eliminate
muscle spasms and seizures.

Many surrounding states approve CBD for Tourette's.
They are: Illinois, Minnesota, Missouri, Arkansas, Ohio +
New Jersey.

In 1998 a study in Germany found 82% reduction of
tics.

4. Please provide a list of any reference material that supports your petition.

Marinol is a synthetic THC pharmaceutical, but it
is much stronger than CBD. We tried it and it affected
his ability to communicate and focus. Too strong.

5. Please provide a list of subject matter experts who are willing to testify in support of this petition (if any). The list of subject matter experts must contain names, background, email addresses, telephone numbers, and mailing addresses. *Attach additional pages if needed.*
